# Leadership

3.  
Responsibility

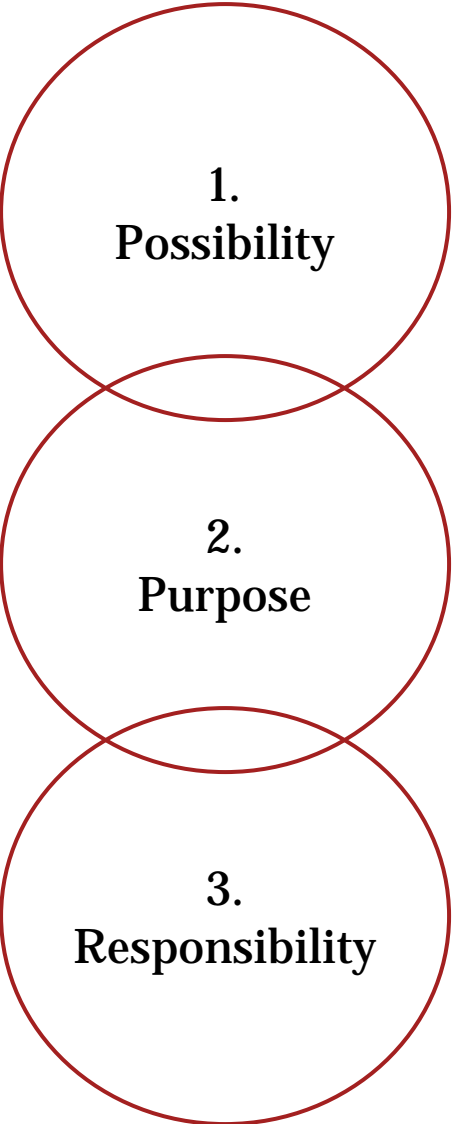

2.  
Purpose

# Leadership

# Leadership

1.  
Possibility

- What do you think is possible for you?
- Is there a challenge that your organization is avoiding?
- Do you create possibility or set limits for your people?

2.  
Purpose

- What is the purpose - deeper meaning of your work?
- Why are you doing all this - all this effort?
- How can you instill meaning with your people?

3.  
Responsibility

- What is your relationship with reality: victim or creator?
- How do you define problems and how you relate to them?
- What is your paradigm? Do you see that „problems are“?
